

Does your home use

RESTORE2?

Recognise Early Soft Signs, Take Observations, Respond, Escalate

Always ask the home if they use RESTORE2™

RESTORE2™ can support you by:

- **Providing a full set of observations and a National Early Warning Score (NEWS2) to support your clinical decision making**
- **Clearly defining what's normal for that resident**
- **Supporting homes to regularly monitor resident's observations to provide a clinical picture**
- **Ensuring communication is clear and concise (SBARD)**

“ the paramedics were grateful for having information ready and provided. Personally I feel we have a better response and working relationship with paramedics especially ”
Care Home

“ we are really grateful when RESTORE2 charts follow patients into the hospital, as they provide excellent background and baseline information ”
Consultant Acute Physician

RESTORE2™

Recognise Early Soft Signs, Take Observations, Respond, Escalate

right care, right time, right place, right outcome
